

**Part A. PERSONAL INFORMATION****CV date**

01/07/2021

First and Family name	Elena Cartea González		
Social Security, Passport, ID number	36091683Z	Age	53
Researcher numbers		Researcher ID	I-1028-2015
		Orcid code	0000-0003-4168-2389

**A.1. Current position**

Name of University/Institution	Consejo Superior de Investigaciones Científicas		
Department	Genética y Mejora Vegetal/ Misión Biológica de Galicia		
Address and Country	Palacio de Salcedo. Carballeira, 8 (Salcedo) 36143 Pontevedra		
Phone number	+34986854800	E-mail	<a href="mailto:ecartea@mbg.csic.es">ecartea@mbg.csic.es</a>
Current position	Investigadora Científica	From	13/08/2000
Espec. cód. UNESCO	240903 - Population genetics; 241714 –Plant genetics; 241793 - Plant genetic resources		
Palabras clave	Brassica, glucosinolatos, genética, metabolitos, estrés biótico		

**A.2. Education**

PhD	University	Year
PhD	University of Santiago de Compostela	1995
Bachelor in Forestry Engineer	University of Santiago de Compostela	1990

**A.3. JCR articles, h Index, thesis supervised...***Scopus database Accessed January 14<sup>th</sup>, 2020*

H index = 26; total ISI manuscripts = 99; Sum of cites = 2933; average citation per year (last five years) = 283; Q1 manuscripts = 47 (49%); PhD thesis as advisor: 5 (four defended and one in progress).

Number of research sexenios = 4 (Last sexenio period 2010-2015) and one Technological sexenio (2020)

**Part B. CV SUMMARY (max. 3500 characters, including spaces)**

My research career focuses on the genetic improvement of horticultural brassicas. It begins with my PhD at the MBG-CSIC. After a postdoctoral stay, I joined in 1997 as a Contracted Researcher and as a Senior Scientist in 2000.

In 2000, I founded a new research group at MBG focused on brassica genetics and improvement. My particular contribution has consisted in the launching of new lines of research and in the creation of the current Group of Genetics, Improvement and Biochemistry of Brassicas. I started two lines of research, one related to resistance to biotic stresses and a second related to nutritional quality based on the identification of relevant bioactive compounds due to their beneficial properties for health. Within the current lines that are being carried out, highlight the genetic studies involved in the synthesis of glucosinolates and the study of the anticancer properties of glucosinolates in types of cancer.

Over my career I have published 98 SCI articles, most of them in journals ranked within the first quartile and present an index h = 26. In addition, I have published 11 non-SCI scientific articles, 17 book chapters, 3 books or monographs and more than 50 publications in conferences and dissemination Journals. I have participated in 43 research projects, of which I have been PI in 20 projects and in 12 contracts with companies and public entities, being PI in 11 of them.

I have actively participated in outreach programs and in staff training, teaching Master's degrees at the Universities of Vigo and Santiago de Compostela. During my research career, I had the privilege to supervise undergraduate thesis and six Doctoral Theses in aspects related to plant breeding and the role of secondary metabolites on plant defense and cancer properties.

I have made a notable effort in international collaboration with foreign groups and participating in three European projects, including a Marie-Curie project, of which I was the PI. He currently coordinates the scientific part of an Erasmus + project of the European Union during the 2020-2023 period and in which several countries are participating. I have notably increased the impact index of my publications, as well as the interaction and collaboration with international and national groups and with the private sector. I have developed six patents and carried out research management functions as a member of the evaluation commission in the ANEP (Genetics area) and DEVA of the Junta de Andalucía. I have assumed administrative responsibilities, I was the Deputy Director of the MBG and from 2011-2015 and I am the Director of the MBG since 2015.

## Part C. RELEVANT MERITS

### C.1. Publications (only the 10 most relevant)

1. **Cartea ME**, Di Bella MC, Velasco P, Soengas P, Toscano S, Branca F. 2021. Evaluation of Italian and Spanish Accessions of *Brassica rapa* L.: Effect of Flowering Earliness on Fresh Yield and Biological Value. *Agronomy* 2021, 11, 29 <https://doi.org/10.3390/> Q1
2. Francisco M, Kliebenstein DJ, Rodríguez VM, Soengas P, Abilleira R, **Cartea ME**. 2021. Fine mapping identifies NAD-ME1 as a candidate underlying a major locus controlling temporal variation in primary and specialized metabolism in *Arabidopsis*. *Plant Journal* 106: 454-467. doi: 10.1111/tpj.15178. D1
3. **Cartea ME**, De Haro A, Padilla G, Obregón S, Del Río-Celestino M, Ordás A. 2019. Seed oil quality of *Brassica napus* and *Brassica rapa* germplasm from northwestern Spain. *Foods* 8, 292. doi:10.3390/foods8080292 Q1

- Tortosa, M, P Velasco, **ME Cartea**, V Rodriguez. 2016. Effector-triggered immunity (ETI) of *Brassica oleracea* to the infection of *Xanthomonas campestris* pv. *campestris* 12th Annual Conference of the Metabolomics Society. Dublin, Ireland
- **Cartea ME**, R Salcido, S Jardón, R Abilleira, P Soengas. 2017. Turnip tops derived by-products: a promising source of bioactive compounds. 7th Symposium on Brassica crops. Pontevedra, Spain
- Nuñez MJ, S Novío, P Soengas, M Freire-Garabal, **ME Cartea**. 2017. Effects of 3-butetyl isothiocyanate on phenotypically different prostate cancer cells. 7th Symposium on Brassica crops. Pontevedra, Spain.
- Francisco, M, VM Rodríguez, **ME Cartea**, DJ Kliebenstein. 2018. Fine mapping and

candidate gene analysis for a major locus controlling circadian clock and secondary metabolism in *Arabidopsis*. 21st Crucifer Genetics Conference. Brassica 2018. Saint-Malo, France.

#### C.5 Patents

- Variedad de Col forrajera o berza (*Brassica oleracea*). "Coella de la Mariña". 20080281 BOE 262/2011
- Variedad de col repollo (*Brassica oleracea*). "Bergantiños". 20080282 BOE 262/2011
- Variedad de col repollo (*Brassica oleracea*). "Coube de Ourense" 20080285 BOE 262/2011
- Variedad de nabicol (*Brassica napus*). "Condado". 20080287 BOE 73/2013
- Variedad de grelo (*Brassica rapa*). "Cimos de Miño". 20080283 BOE 216/2017
- Variedad de nabiza (*Brassica rapa*). "Ordes". 20080284 BOE 216/2017

#### C.6 PhD Student mentoring

*Supervisor of PhD students:*

- Guillermo Padilla Alonso (2002-2006). PhD dissertation at University of Vigo: "Potencial de los recursos genéticos del género *Brassica* para su mejora en Galicia".
- Marta Francisco Candeira (2007-2011). PhD dissertation at University of Vigo: "Compuestos bioactivos y producción de gredos y nabizas: variación fenotípica y ambiental".
- Tamara Sotelo Pérez (2011-2015). PhD dissertation at University of Vigo: "*Brassica oleracea* como fuente de compuestos biosaludables: aproximación genética".
- María Tortosa Viqueira (2014-2018). PhD dissertation at University of Vigo: "Multi-omics response to *Xanthomonas campestris* pv. *campestris* in *Brassica oleracea*".
- Elena Pérez-Muñozuri (2018-2021). PhD dissertation at University of Santiago de Compostela "Effects of Brassicaceae on Breast Cancer".

*Supervisor of undergraduate students (Trabajos Fin de Master y Grado):*

- Sonia Coves (2021). Master thesis at University of Santiago de Compostela. "Aplicación de la mejora genética en la modificación de compuestos bioactivos en brásicas". Sobresaliente (9,16)
- Andrea Losada González (2016). Bachelor thesis at University of Santiago de Compostela. "Evaluación de la resistencia de brásicas a *Mamestra brassicae*".
- Hélder Renato Castro Neves Barbosa da Cunha (2014). Bachelor thesis at University of Santiago de Compostela. "Evaluación de la actividad antitumoral in vitro de compuestos naturales en el cáncer de próstata"
- Nuno Filipe Neves Craveiro (2014). Bachelor thesis at University of Santiago de Compostela. "Evaluación de la actividad antitumoral in vitro de compuestos naturales en el cáncer de próstata".
- Marta Gómez Ramiro (2014). Bachelor thesis at University of Santiago de Compostela. "Evaluación de la actividad antitumoral in vitro de compuestos naturales en el cáncer de próstata".
- Fátima Nogueira Míguez (2012). Bachelor thesis at University of Vigo.
- Marta Vilar Iglesias (2006). Bachelor thesis at University of Vigo. "El cultivo de berzas en Galicia: valor agronómico y nutricional".
- Víctor Manuel Rodríguez Graña (2004). Bachelor thesis at University of Vigo. "El nabicol: un recurso fitogenético de interés para Galicia".
- Ana Picoaga Mountoussé (2000). Bachelor thesis at University of Vigo. "Incidencia de las plagas de Lepidópteros en el cultivo de *Brassica oleracea* en Galicia".

#### C7. R&D Management Experience (Management of R&D Programs, Plans and Actions)

- Member of the Expert Group of Ministry of Education and Science (Spain)
- Evaluation of research projects and human resources calls. Agencia Nacional de Evaluación y Prospectiva (ANEPE, Spain), Agencia para la Calidad del Sistema Universitario de Castilla y León (ACSUCYL), Junta de Andalucía, and The Executive Board of the Austrian Science Fund (Austria).
